

## JD Edwards EnterpriseOne Development Tools Part 3 Rel 9.x

**Duration:** 5 Days

### What you will learn

This JD Edwards EnterpriseOne Development Tools Part 3 training will teach you how to use PowerForms, subforms, wizard forms and parent child forms. You will also learn how to use power form system functions and event rules.

Learn To:

- Use subforms.
- Apply system functions and event rules.
- Describe power forms.
- Create wizard and power browse forms.
- Create parent child forms.
- Use power edit forms.
- Create a standard subform.
- Create a mapping link.
- Create a reusable subform.
- Use automatic features of FDA.
- Use the saved query control.
- Create grid icons.
- Enable EnterpriseOne Pages.
- Create and enable Auto Suggest.
- Set up hover forms.

### Benefits to You

By investing in this course, you'll walk away with a deeper understanding of saved query controls and grid icons. Through interacting with expert Oracle University instructors and applying new knowledge through hands-on exercises, you'll develop new skills that will help you leverage this solution's capabilities in your daily job.
